**Neighborhood Stabilization Program (NSP) Status Update**

**Due to a delay in funding by the Illinois Housing Development Authority (IHDA), work on the City of Berwyn's NSP Program has been delayed. Contractors who bid on rehabilitation work on the properties purchased under this program have been directed to hold off until funding by the state becomes available.**

**We believe the rehab work on these homes will begin sometime after the middle of January, 2011. Once funding becomes available, and rehab work begins, we will post information on this site as to when the first NSP properties will be available for purchase under this program.**

**Thank you for your patience while we wait for funding. We hope you remain interested in this program. If you have any questions, please contact the Community Development Department at 708-795-6850.**
