

Dear Illinois Funds E-Pay Participant:

November 12, 2015

At approximately 7:00 AM on 11/13/2015, the Illinois Funds E-Pay e-commerce application will be taken down for a brief maintenance. We do not anticipate the application to be down for longer than fifteen minutes. All participant E-Pay websites will be unavailable during this time.

**Important Post Maintenance Information**

During this maintenance period, multiple Payment Card Industry Data Security Standard requirements will be implemented, including the deprecation of older, less-secure SSL/TLS protocols. The removal of these protocols will mean that older browser versions will no longer be able to connect to [www.epayillinois.com](http://www.epayillinois.com) due to their inability to meet the new security standards. To connect to E-Pay, your constituents will have to use one of the following browser versions:

- Internet Explorer 11 (Internet Explorer 10 can be used, but may require changes to the user's browser settings)
- Google Chrome v.38 or greater
- Mozilla Firefox v.27 or greater
- Safari v.7 or greater

As always, it is good security practice to regularly update computer applications, including internet browsers, to ensure they have the latest security measures in place. We apologize for any inconvenience this may cause.

Best regards,

Illinois Funds E-Pay Customer Service & Support
