Lombard, ILL- Feb.1, 2015 - Waste Management of Illinois will operate on a holiday schedule the week of February 2-6, due to extreme weather conditions.

The holiday schedule means that crews will attempt to collect Monday routes on Tuesday, Tuesday routes on Wednesday, etc. Due to drifting snow and icy conditions, service will be limited in some areas, specifically rural areas.

Waste Management asks that residents leave trash and recycle containers at curbside or alley service for collection until end of day on Saturday and will attempt to collect materials as soon as conditions improve. If Waste Management crews are unable to collect your materials this week, service will resume next week on your regular service day.

"We are working to get your pick up service back on schedule as soon as possible, and we apologize for the inconvenience," said Lisa Disbrow, spokesperson for Waste Management of Illinois.
