Community Development Department

The Community Development Department is funded by an annual grant from the U S Department of Housing and Urban Development (HUD). The grant money is distributed within the City of Berwyn according to the needs of the community, which are regularly assessed through the medium of public meetings.

In recent years, the Community Development Department has been able to fund the Single Family Rehab Program which offers eligible residents no interest loans that are payable at the time the owner occupied home is sold. This department also collaborates with the Department of Public Works in funding infrastructure projects in areas within Berwyn that are designated low to moderate income. Lastly, this department also helps fund many local social agencies that directly provide services to Berwyn residents.
